### Other

Node.js, Git, GraphQL, Cypress, Twig, Tailwind, REST API, Docker, Vagrant, Adobe Photoshop, Adobe Illustrator, Figma, Sketch

## Recommendations

### Patrick Niekerken

CEO of Patrick & Friends:

"We were always very satisfied with Sven as a freelancer. His communicative and warm nature, combined with the healthy culture of discussion he brings, has consistently made collaboration enjoyable. We particularly value his professional competence, his ambition, and his ability to provide constructive feedback. We look forward to further successful projects with him."

### Peter Pratz

Project Manager at Sapiens Germany:

"During our collaboration, I experienced Sven as an extremely dedicated, reliable, and highly skilled developer and consultant. He quickly familiarized himself with our project, allowing him to take proactive and independent responsibility for a variety of tasks in a short amount of time. Due to his swift integration into the team, we perceived him as a full-fledged member rather than an external freelancer. For future needs, he will be our first point of contact."

---

## Projects: October 2021 to present

---

### Website-Relaunch

Sea Watch e.V.
